The weak stock market debut 2016 is well-remembered by many investors. Economic concerns in the emerging markets, especially in China and the continuation of the drop in oil prices increased the uncertainty among investors. Slowly but surely, the global stock markets have stabilized and more and more investors are returning to the trading floors.

With the **Dividend Stocks Winner III 95%** Guarantee Certificate Raiffeisen Centrobank offers an investment opportunity for risk averse investors who consider the turbulent start of the year 2016 as a chance to enter the market. The investment product with 95% capital protection offers a participation of 165% in the positive average performance of a dividend index of the renowned Swiss index house Stoxx Limited. Further details regarding opportunities and risks are presented on the following page.

The **STOXX® Global Select Dividend 100 Index (EUR)** serves as underlying for the certificate. The index focuses on the highest dividend-yielding stocks of North America, Europe and Asia/Oceania. These stocks with above-average profit participation are usually less volatile and more stable than the overall market. Criteria for the selection of the stocks included in the index are the continuous growth of dividend yield and the regular payment of dividends.

At the end of the term the investment is 95% capital protected by Raiffeisen Centrobank, i.e. during the term price fluctuations may occur, but at the end of the term the investor obtains 95% of the nominal value.

### FUNCTIONALITY

At the initial valuation date the **starting value** of the STOXX® Global Select Dividend 100 Index (EUR) is determined (closing price of the index). Once a year, at the respective annual valuation date (2017–2024), the closing price of the index is compared with its starting value and the **index performance** is calculated (percentage index performance from the starting value to the closing price at the respective valuation date). At the end of the term the arithmetic average performance of the STOXX® Global Select Dividend 100 Index (EUR) of the eight annual valuation dates is determined.

At the maturity date 165% of the **positive average performance** is paid out **in addition to the capital protection of 95%** of the nominal value.

## STOXX® Global Select Dividend 100 Index (EUR)

- Since 1999 the index has been calculated as price index by the renowned Swiss index house Stoxx Limited.
- The index is composed of **100 companies** from North America (40 stocks), Europe (30 stocks) and Asia & Oceania (30 stocks)
- Annual revision of the composition in March
- Shares included in the index are for example:

Allianz, AT&T, Banco Santander, CIBC, Chevron, Deutsche Post, GlaxoSmithKline, Hewlett-Packard, Intel, Mattel, Merck, Münchener Rück, Swisscom, Zurich

## OPPORTUNITIES

- Unlimited participation in the positive average performance of a global index consisting of 100 companies.
- The average price calculation provides for a cushion to set off price slumps by positive performances at other valuation dates.
- The investment product is 95% capital protected at the end of the term, i.e. at the end of the term (May 2024) the investor obtains at least 95% of the nominal value.
- Flexibility through permanent secondary market, no management fees.

## RISKS

- In case the average performance of the STOXX® Global Select Dividend 100 Index (EUR) of the eight annual valuation dates is not positive, the investor obtains no yield and is paid out 95% of the nominal value. Thus the investor will incur a loss of 5% of the nominal value as the capital protection comes up to 95%.
- The Certificate Dividend Stocks Winner III 95% does not yield ongoing income such as interest rates.
- During the term the price of the certificate may drop below 95%; the capital protection takes effect exclusively at the end of the term. Loss of value due to inflation is not covered by the capital protection.
- Redemption is dependent on the solvency of Raiffeisen Centrobank (issuer risk). In case of insolvency of the issuer the investor may incur a total loss.
