Information on the term

Please note:

- 90% of the nominal amount will in any case be paid out at maturity; during the term, the price may fall below the issue price or the capital protection level.
- The maximum repayment is limited to 130% (of the nominal amount).
- Loss of purchasing power due to inflation is not offset by the capital protection.

Issuer risk / creditor participation: Certificates are not covered by the deposit protection system. There is a risk that Raiffeisen Bank International AG may not be able to meet its payment obligations due to insolvency (issuer risk) or any official orders ("bail-in"). In such cases, the invested capital may be lost in full.

Many investors are generally interested in the stock market, but do not have the appropriate risk tolerance to actually hold shares in their securities deposit. Capital Protection Certificates can be a solution for this situation: they allow participation in rising stock prices while at the same time (partly) protecting the invested capital.

The underlying of this certificate is the share of **voestalpine AG**. voestalpine AG is a steel-based technology and capital goods group based in Linz, Austria. The company focuses primarily on product and system solutions based on steel and other metals in technology-intensive industries and niches.

The certificate is suited for investors who expect the price of the voestalpine AG share to rise over the next 5 years but also seek protection for part of their invested capital (capital protection at 90% of the nominal value).

At the end of the term investors participate at 100% in price increases of the voestalpine AG share up to a maximum of +30%. This means that the maximum payout is limited to 130% of the nominal value. Investors also participate in falling share prices but losses are limited to 10% of the nominal value due to the capital protection of 90% that applies at the end of the term. The certificate has a term of 5 years. For details on risks and opportunities please see the following pages.

FUNCTIONALITY

Beginning of the term:

At the initial valuation date the starting value of the voestalpine AG share (closing price as of May 22, 2019) is determined.

End of the term:

At the end of the term, the performance of the voestalpine AG share is evaluated. The share starting value is compared to the share closing price at the final valuation date (May 17, 2024). Investors participate at 100% in the positive performance of the underlying share up to the cap of 130% of the starting value. Thus, the maximum payout at the end of the term is limited to EUR 1,300 per nominal value. In case of a negative performance of the voestalpine AG share of more than -10%, the capital protection of 90% applies.

At the end of the term the investment is **90% capital protected** by Raiffeisen Centrobank AG, i.e. during the term price fluctuations may occur, but at the end of the term the investor obtains 90% of the nominal value in the worst case.

UNDERLYING: VOESTALPINE AG

ISIN: AT0000937503, as of: April 8, 2019
Source: Reuters (-VOES.VI)

Please note that past performance is no reliable indicator of future results.

At the final valuation date one of the following scenarios applies:

SCENARIO 1: Share performance is POSITIVE

At the end of the term the increase in the share price from the starting value to the closing price at the final valuation date up to a maximum of +30% is paid out in addition to the nominal value (equals a maximum payout of EUR 1,300 per nominal value).

SCENARIO 2: Share performance is UNCHANGED or NEGATIVE

Participation in falling prices of the underlying share is limited to a maximum of -10%. If the share has decreased by more than 10% by the end of the term, the capital protection of 90% applies and redemption is effected at EUR 900 per nominal value.

EXAMPLE: REDEMPTION AT THE END OF THE TERM

	SHARE PERF.	MECHANISM	REDEMPTION
POSITIVE	+50%	Redemption at the maximum amount (cap)	EUR 1,300
POSITIVE	+20%	1:1 Participation	EUR 1,200
POSITIVE	+10%	1:1 Participation	EUR 1,100
POSITIVE	+5%	1:1 Participation	EUR 1,050
NEGATIVE	-5%	1:1 Participation	EUR 950
NEGATIVE	-10%	1:1 Participation	EUR 900
NEGATIVE	-20%	90% Capital protection	EUR 900
NEGATIVE	-50%	90% Capital protection	EUR 900

Raiffeisen Centrobank AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein.

During the term, the market price of the certificate may drop below 90% of the issue price due to price fluctuations. The capital protection of 90% exclusively applies at the end of the term. The market price of the certificate need not develop simultaneously in accordance with the market price of the underlying instrument during the term. During the term, the market price of the certificate is subject to various influencing factors such as volatility, coupon, credit rating of the issuer and remaining term.

Issuer Risk/Creditor Participation ("bail-in"): Redemption or repayment of the certificate at the end of the term is dependent on the solvency of the issuer (issuer risk). Investors are exposed to the risk that Raiffeisen Centrobank AG as an issuer might be unable to fulfil its obligations in respect of the described financial instruments, such as in the event of insolvency (inability to pay/over-indebtedness) or a legal order to initiate resolution measures. The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. A total loss of the capital invested is possible. More detailed information is available at www.rcb.at/en/basag
