FUNCTIONALITY

- At the initial valuation date the closing price of the STOXX® Europe ESG Leaders Select 30 index is determined as **starting value**.
- At the final valuation date the closing price of the index is compared to the starting value and **one of the following scenarios will apply**:

SCENARIO 1: Index AT or ABOVE 90% of the starting value

A) Index \geq 100% of the starting value → redemption at 124%

If the closing price of the index at the final valuation date is equal to or higher than the starting value, the redemption on the maturity date will be at 124% of the nominal value. This equals the maximum amount of EUR 1,240 per EUR 1,000 nominal value.

B) Index \geq 90% and < 100% of the starting value → redemption at 100%

If the closing price of the index at the final valuation date is less than 100% but at least 90% of the starting value, the payout at the maturity date will be 100% of the nominal value. This equals EUR 1,000 per EUR 1,000 nominal amount.

SCENARIO 2: Index BELOW the starting value

If the closing price of the index at the final valuation date is below 90% of the starting value, the capital protection will apply and the certificate will be repaid on the maturity date at 90% of the nominal value (equivalent to EUR 900 per nominal value).
