The Underlying

The STOXX® Global Select Dividend 100 contains only equities that are included in the STOXX® Global 1800 Index (investment universe).

Further criteria for inclusion in the underlying are:

Global: 40 shares from North America, 30 from Europe, 30 from Asia/Australia

Select Dividend: Growth, regularity and amount of dividend payments as criteria for inclusion

Price index: Dividends paid out are not reinvested in the index, but are used by the issuer to define the payout profile.

Information on the term and interest rate payments

Please note:

- 100% of the nominal amount will in any case be paid out at maturity; during the term, the price may fall below the issue price or the capital protection level.
- Loss of purchasing power due to inflation is not offset by the capital protection.

Issuer risk / creditor participation: Certificates are not covered by the deposit protection system. There is a risk that Raiffeisen Bank International AG may not be able to meet its payment obligations due to insolvency (issuer risk) or any official orders ("bail-in"). In such cases, the invested capital may be lost in full.

Notes:

You are about to purchase a product that is not easy and difficult to understand. For further information see the Base Prospectus (including possible amendments) – approved by the Austrian Financial Market Authority (FMA), deposited at the Oesterreichische Kontrollbank AG and published at [raiffeisenzertifikate.at/en/securitiesprospectus](https://www.raiffeisenzertifikate.at/en/securitiesprospectus) (we recommend reading the prospectus before making an investment decision), in the key information document and among „Customer Information and Regulatory Issues“ at <https://www.raiffeisenzertifikate.at/en/customer-information>. The approval of the base prospectus by the competent authorities is not to be understood as an endorsement of the product by these authorities.

Effective as of 1 December 2022 Raiffeisen Centrobank AG has transferred its certificates business to Raiffeisen Bank International AG including (i) all associated rights and obligations, and (ii) the legal position as issuer of existing securities, i.e. outstanding securities issued by Raiffeisen Centrobank AG. Therefore, as of 1 December 2022, Raiffeisen Bank International AG constitutes the issuer of and the debtor under the securities referred to in the product brochure.

Please be aware that the product brochure reflects the legal situation at the date of its creation and does not contain any updated information about the issuer.

¹ Early closing or extension of the subscription period is within the sole discretion of Raiffeisen Centrobank AG.

² Redemption at the maturity date dependent on the solvency of RCB*.

* Raiffeisen Centrobank AG is a 100% owned subsidiary of Raiffeisen Bank International AG – rating of RBI: www.rbinternational.com/ir/ratings

FUNCTIONALITY

At the **initial valuation date** the **starting value of the underlying** and **at the final valuation date** the **final value** is determined. At the final valuation date the closing price of the final value is compared to the starting value and one of the following scenarios will apply:

1) Final value ≥ 100% of the starting value → 100% participation

If the final value is greater or equal to 100% of the starting value, certificate will be redeemed on the redemption date according to the performance of the underlying (percentage development from the starting value to the final reference value).

2) Final value < 100% of the starting value → redemption at 100%

If the final value is less than 100 % of the initial value, the capital protection of 100% applies at maturity. In this case, 100% of the nominal value is paid out on the redemption date.

The **fixed interest rate** is paid out **in any case**, regardless of the underlying performance.

PAYOUT PROFILE: EXEMPLARY PRESENTATION

FINAL VALUE*	REDEMPTION**
+50%	150%
+25%	125%
+15%	115%
+/- 0% (= Starting value)	100%
- 5%	100%
- 15%	100%
- 30%	100%
* in comparison to the starting value; ** in % of the nominal value

COUNTRY WEIGHTING

OPPORTUNITIES

- **Return opportunity:** Fixed annual interest rate (0.85% p.a.) in addition to full participation in the performance of the underlying
- **Capital protection:** At the end of the term, the investor obtains at least the capital protection amount.
- **Flexibility:** Tradability on the secondary market, no management fees

RISKS

- **No guaranteed minimum yield:** The payout of the certificate depends on the underlying performance. There is no guaranteed minimum payout.
- **Capital protection only at the end of the term:** During the term the price of the certificate may drop below the capital protection level. For example, strongly rising interest rates have a negative impact on the price performance of the certificate. Loss of value due to inflation is not covered by the capital protection. The capital protection applies exclusively at the end of the term.
- **Issuer risk / Bail-in:** Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

DISCLAIMER

In spite of all possible care taken, the data contained in this advertisement are provided purely as non-binding information. This advertisement constitutes neither investment advice nor an offer nor a recommendation nor an invitation to execute a transaction. The information contained in this advertisement is generic and no consideration is given to the personal circumstances of potential investors. The information contained in this advertisement substitutes neither the necessary individual investment advice for the purchase or sale of investments nor shall any investment decision be taken on the basis of this document. This advertisement has not been prepared in accordance with legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research.

The complete information for all financial instruments described in this advertisement as well as the sole legal basis for potential transactions in one of the described financial instruments is the Base Prospectus (including any possible supplements) which has been approved by the Austrian Financial Market Authority (FMA) in connection with the corresponding Final Terms of the described financial instruments. The approved Base Prospectus (including any possible supplements) and the respective Final Terms have been deposited at the Oesterreichische Kontrollbank AG as the notification office. The approval of the Base Prospectus should not be construed as an endorsement of the financial instrument described herein by the FMA. Additional information on the financial instruments described herein may also be obtained from the respective key information documents (KIDs) that are available for download free of charge on the website of Raiffeisen Centrobank AG (www.rcb.at) by entering the International Securities Identification Number (ISIN) of the respective financial instrument. Unless otherwise explicitly expressed in any of the cited documents above, no measures have been taken in any national legal system which should permit a public offering of the products described therein. Raiffeisen Centrobank AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein.

Certificates are risky instruments of wealth investment. Should the price of the respective underlying instrument of a certificate develop adversely, an investor may lose part or all of his or her invested capital. Certificates react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying. Under certain circumstances the issuer is authorized to redeem the certificates prior to the agreed repayment date.

Issuer Risk/Creditor Participation ("bail-in"): Any payments during or at the end of the term of the certificates depend on the solvency of the issuer ("issuer risk"). Investors are therefore exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency ("issuer risk") or an official directive ("bail-in"). The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. More detailed further information is available at www.rcb.at/en/basag. A total loss of the invested capital is possible.

Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information. The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives, opinions of financial authorities, jurisdiction etc.

The price of the Capital Protection Certificate is dependent on the underlying's price. Adverse performances of the underlying may cause price fluctuations of the Certificate during the term. If the Capital Protection Certificate is sold prior to the end of the term, there is the risk to incur a substantial loss of the invested capital ("market risk"). The capital protection of 100% of the nominal value applies solely at the end of the term. During the term, the price of the Capital Protection Certificate may drop below the agreed capital protection amount. During the term, the Capital Protection Certificate's price is subject to several influencing factors and needs not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), interest rates, solvency of the issuer or remaining term. If the Capital Protection Certificate is sold prior to the end of the term, there is the risk to incur a partial loss of the invested capital. Dividends and similar rights associated with the underlying are taken into account when structuring the Capital Protection Certificate and are not paid out.

The STOXX® Global Select Dividend 100 index, which is used under license, is the intellectual property (including registered trademarks) of STOXX Limited, Zurich, Switzerland ("STOXX"), Deutsche Börse Group or its licensors. 0.85% Dividend Stocks Winner certificate is neither sponsored nor promoted, distributed or in any other manner supported by STOXX, Deutsche Börse Group or their licensors, research partners or data providers and STOXX, Deutsche Börse Group and their licensors, research partners or data providers do not give any warranty, and exclude any liability (whether in negligence or otherwise) with respect thereto generally or specifically in relation to any errors, omissions or interruptions in the STOXX® Global Select Dividend 100 index, or its data. Further detailed information on this matter may also be found in the Base Prospectus at "Underlying Specific Disclaimer".
